

INTO Studenci Maribor Business Site

Owner of the project:

Nigrad Inženiring d.o.o.

Estimated value:

€8 million

ROI:

4 years

Short description

The City of Maribor is planning to build the international INTO Studenci Maribor Business Site for companies which would like to enter the European market. The business site will include 29 individual commercial and residential units in order to create the conditions for owners of interested companies to receive the work and residence permissions necessary to live and work in the European Union.

The business site includes the construction of a business centre to support activities for all of the commercial and residential units. The business centre will provide services for: legal issues, commerce, finance, accounting and for promotion/marketing proposes.

Suggested partnership: public-private partnerships for financing project and for the sale of commercial and residential units.
